Announcement of the Session of 1858--9.

MEDICINE *is taught in this Institution* NINE *months* annually. There will be two Sessions, but only one public commencement, as they count for one Course. A Summer Session, commencing the first Monday of each April, continues four months, and is especially devoted to Clinical Instruction, Practical Demonstration, and daily Examinations. The regular Winter Session opens the first Monday of each November, and Commencement is held early in March following. Students may, however, be examined for the degree in July.

A *Preliminary Course* of Lectures, free to all Students, will be given by the Professors, commencing on the first Monday of October; and, at the same time, the Anatomical Rooms will be opened for Students, under the supervision of the Professor of Anatomy. The Ticket for Practical Anatomy is obligatory one session.

The TENNESSEE STATE HOSPITAL, under the direction of the Faculty, is open to the Class, free of charge; and a Clinique has been established in connection with the University, at which operations are performed, and cases prescribed for and lectured upon, in the presence of the Class. The Hospital is now under the management of the Sisters of Charity, and is in every respect, a First Class one.*

---

* This Hospital is no make-shift or make-believe. It is a fine pile of substantial stone buildings surmounted by a dome. It presents a centre building three stories high—two wings each two stories, the entire front being 206 feet. The Hospital is capable of accommodating 150 patients in well ventilated wards. The Hospital grounds consist of 10 acres enclosed by a substantial fence of hammered stone, and laid out in grass plots well ornamented with shade trees.

During the week the Dean has been engaged in preparing and superintending the Printing of this Catalogue, the following operations have been performed at the Hospital.

1. Amputation of Thigh—male aged 38 from Georgia. 2. Amputation Arm—woman aged 25, Tennessee. 3. Amputation Thigh—male aged 18, Tennessee. 4. Amputation middle finger at Metacarpo-Phalangeal Articulation. 5. Cataract, both eyes-male aged 58, Mississippi. 6. Catarat one eye, male 52, Tennessee. 7. Catarat both eyes, male 48; South Carolina. 8. Cataract, one eye, male 45, Kentucky. 9. Exostosis of the Femer; male aged 24, Tennessee, Tumor large. 10. Immense Psoas Abscess opened, male, aged 56. 11. Cut throat, larynx opened, (attempted suicide,) male. 12. Incised Wound of the Scalp, male aged 30. 14. Fracture into the Elbow Joint. 14. Contused Ancle, male. 15. Excision of a part of the Os Calcis, male. 16. Circumcision, male, aged 14; Tennessee. 17. Tapping twice of Abdomen, female, aged 18. 18. Staphylo-raphy, female, aged 27, Ohio.

The whole domestic care of the Hospita is under the Sisters of Charity, who give their entire energies to the Institution. It may justly be regarded as a model Hospital, giving every advantage to the Student for Clinical Instruction, during his attendance upon the Lectures, of which he can possibly avail himself.

The Candidate for the degree of *Doctor of Medicine* must have attained the age of twenty-one years, and have been engaged in the study of Medicine three years. He must have attended two full Courses of Lectures in a regular and accredited School of Medicine; the last of which, in this Institution. He must write an acceptable Thesis, and deposit it with the Dean on or before the first day of February, on some Medical subject of his own selection. He must, at the time of receiving the degree, acknowledge the right of the Faculty to revoke it, should he engage in irregular or unprofessional practices.

FEES.

The Fees for a full Course of Lectures amount to -	$105 00
Matriculation Fee, (paid only once,) - - -	5 00
Practical Anatomy, (obligatory one session, in any accredited Medical College,) - - - -	10 00
Graduation Fee, - - - -	25 00

Good Board can be procured at $3 to $4 per week. Further information can be obtained by addressing

W. K. BOWLING, M.D.,
Dean of the Faculty.

Text Books.

ANATOMY.—Sharpey and Quain, Horner, Wilson.

PHSIOLOGY.—Carpenter, or Kirke and Paget.

PATHOLOGY.—Gross's, or Jones' and Sievekings', Pathological Anatomy.

CHEMISTRY.—Graham or Silliman.

MATERIA MEDICA.—Pereira, United States Dispensatory, Royle, Mitchell, Wood or Dunglison.

SURGERY.—Miller's Principles, Erichsen, or Druitt's Modern Surgery.

OBSTETRICS.—Cazeaux, Dewees, Ramsbotham, Davis, Meigs; Ashwell on Diseases of Females.

MEDICAL JURISPRUDENCE.—Taylor, or Beck.

PRACTICE OF MEDICINE.—Wood.

MICROSCOPIC ANATOMY.—Hassall, or Carpenter.

PHARMACY.—Parrish.

C. K. WINSTON, M.D. J. BERRIEN, LINDSLEY, M.D.
THOMAS R. JENNINGS, M.D.

UNIVERSITY OF NASHVILLE.

The University of Nashville, while a State Institution, has received nothing, in the way of endowment, from the State of Tennessee; it is older than the State, and was endowed by the Mother-State, North Carolina. It never has been under denominational influence, and is independent of State or Church. Her ample endowment, and long and useful existence, place her perpetuity beyond question. Among the greatest statesmen, living or dead, Tennessee has produced, graduated in early youth from this institution.

The present funds of the University amount to nearly four hundred thousand dollars, vested in State Bonds and City Real Estate that has always yielded six per cent. per annum.

During the Academic year, 1857 and 58, there were in the Collegiate and Medical Departments, five hundred and fifty-four* matriculants.

Collegiate Department, - - - - -	201
Medical Department, - - - - - -	353
	554

In all human probability she is destined to become the wealthiest University in the United States, as her city property is rising rapidly in value. Her Board of Trustees are liberal and enterprising, and are alive to the great interests over which they are called to preside.

Her Collegiate Department, from the commencement of this century, has held an honorable rivalry with the Universities of North Carolina and Virginia, the greatest institutions of the South, while her Medical Department, immediately after its organization, took a position and has regularly maintained it, far in advance of all rivalry from the Western and Southern Institutions, and is now the honorable rival of the mother of Medical Schools, the University of Pennsylvania, at Philadelphia.

The Museums and Cabinets of both the under-graduate and medical departments are thoroughly furnished, and the library contains about four thousand volumes.

To the friends and patrons of the University, mostly residing in the slave-holding States, its officers and managers would again present its claims.

---

* The preceding year the classes in both departments reached 622, that of the Medical being 419. The financial crash of last year will account for the slight diminution of the classes of that year.

SCHOOL FOR PRACTICAL CHEMISTRY.

E. A. ANSMAN, M.D.,

Prof. of Analytical and Agricultural Chemistry in the University of Nashville.

This School has a large Laboratory in the Medical College building, which is fitted up with the necessary apparatus and re-agents for instruction in Practical Chemistry.

A Course adapted to the wants of Medical Students is given during the Winter and Summer Sessions.

The Course embraces Elementary Practical Chemistry, Toxicology, Pharmacy, Analysis of Soils, Ores, Mineral-Waters, etc.

Ticket for the Course, $10.

UNIVERSITY OF NASHVILLE,

MILITARY COLLEGE.

The Annual Session of this College is divided into two *Terms* of Twenty Weeks each. The First Term commences on the Third Monday in September, and the Second Term on the Second Monday in February.

In the regular Collegiate Course, the ancient reputation of the University for sound scholarship and classical learning will be maintained. A parallel Course of Science is established, in which students are graduated as *Bachelors of Science;* or they may select a course including Modern Languages, Mathematics, Civil Engineering, English Literature, etc., and receive certificates of proficiency. A Preparatory School is attached, in which boys are thoroughly trained.

By the aid of Military Discipline, effective government is established, and health, physical culture, good order, and industrious habits are promoted.

The best efforts of the Faculty and Trustees are pledged to make the College meet the wants of the South.

Tuition, Boarding, Washing, Fuel, Rooms, Servants' Attendance, and Use of Arms, $100 per term. Matriculation Fee, $5, payable once only. Surgeon's Fee and Medicine, $5 per term of twenty weeks. Students are required to furnish their rooms, which can be done at a moderate charge, by rent or purchase.

Engineering, French, Spanish, German, Drawing, Book-keeping, and Fencing, each $10 per term of twenty weeks. Students are required to keep their expenditures within moderate limits; extravagance in this respect being sufficient cause for dismissal from the College.

For further information apply to

B. R. JOHNSON,
Superintendent.

July, 1858.
